How did you hear about HNLC?

I would like to be sent information about HNLC Open Meetings and activities

I would like to be sent information about other initiatives
as long as they are in keeping with HNLC's objectives

I am interested in and would like details about;

Hooky Car Club

Hooky E-Bikes

Home Improvement/ Retrofit loan scheme

I am considering taking the following CO₂ saving measures;

.....

.....

.....

The joining process:

Our company rules require that all applications for membership must be approved by the management committee. You need to be over 18, and can only join as an individual. In practical terms the only reason the committee would refuse a member is if that person did not support the aims of the company. However the applications need to be formally approved at the first committee meeting following your application. We can only approve your membership if we know who you are, so the best way for prospective members to get to know the management committee is to come along to the Low Carbon Hook Norton meetings which are open to everyone. If you like what we are doing and how we are doing it and want to participate, that's the time to join as a shareholder. We are happy to share our expertise and experience with non-members at the open meetings. Once we've approved your membership you then need to pay your £1 and we issue you with a share certificate, and you are a member with all the benefits and a vote.

I confirm that I am over 18 years of age

I would like to become a member of Hook Norton Low Carbon Limited (membership £1) and agree to my contact information being stored on the HNLC database, which will not be shared with third parties without my permission. I understand that I can view that information if required and have it removed should I choose to cancel my membership. I understand that my contact information may be used to send me information about HNLC activities and events, and I have indicated my preference above.
